NOTES:

Journey to Work by County of Work for Iowa Counties: 1970-2000

County of Work	County of Residence	Total number of commuters			
		1970	1980	1990	2000

The total number of workers commuting between counties of residence and counties of work for 2000 is equal to the sum of the number of commuters by major industry for each separate county of residence/county of work combination. Because of this reason, the number of commuters between place-of-work and place-of-residence counties for the year 2000 in this file will differ from the number of commuters in the Census 2000 file.
